Installation Guide

MOTORHOME PADS

Six steps to ensuring your motorhome is level for you to enjoy your holiday.

Identify a suitable location/ pitch for your vehicle and reposition if necessary.

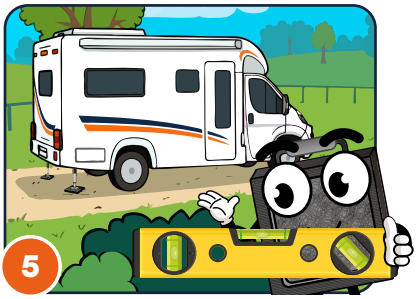

Unload pads from storage locker and unpack.

Place pads under legs/steadies and start lowering them down to support the vehicle.

When levelling the vehicle on different terrains, it is important to check for adverse movement after pad placement.

Check your spirit level to confirm your vehicle is level.

Time to enjoy your holiday knowing your motorhome is safe and level with Motorhome Pads.
